

## TECHNICAL DATA SHEET

# GOLDSTAR<sup>®</sup> GROUT RESIDUE REMOVER

ELIMINATES  
GROUT HAZE

A blend of acids and detergents for the removal of unmodified cementitious grout and mortar residues.

### DESCRIPTION

**TAL Goldstar Grout Residue Remover** is an advanced formula containing both acids and detergents designed to quickly and effectively remove unmodified cementitious grout and mortar residues and stains from both porous and non-porous surfaces.

**Note:** This product is designed for the above-mentioned application only. TAL will not be liable for misuse or adulteration of the product.

### FEATURES

- Eliminates grout haze
- Removes **unmodified** grout residue
- Suitable for porous & non-porous surfaces

# TECHNICAL DATA SHEET

## GOLDSTAR® GROUT RESIDUE REMOVER

Issue Date: 27 JANUARY 2025

### TECHNICAL DATA:

Type	Cleaner
Colour	Pink
Packaging	1L & 5L
Application Temperature Range (Ambient)	10°C - 30°C

### CAUTION:

- TAL Goldstar Grout Residue Remover will not be effective in removing modified grout and mortar residues, ie grout or mortars containing latex additives such as TAL Bond or TAL Bond Powder.
- In this instance a solvent such as TAL Epoxy Cleaning Fluid will be required to remove grout residues.
- TAL Goldstar Grout Residue Remover should NOT be used on marble, cement, terrazzo or limestone tiles, metal surfaces or linoleum.
- Always conduct a test panel first to establish the results.
- Do not mix with other chemicals.
- Do not allow to freeze.

### PREPARATION:

It is important to ensure that floors and surfaces are thoroughly swept or dusted to remove all traces of surface dust, debris, etc.

### APPLICATION

Surfaces must be dry.

**Do not dilute.** Apply evenly to the affected surface by either spraying or using an appropriate builder's block brush.

Leave for 5 – 10 minutes, then wet-water scrub the surface in a circular motion, followed by a clean water rinse. Repeat the above procedure until the desired results are achieved.

**Important: Special care must be taken to ensure TAL Goldstar Grout Residue Remover is not applied over the grout in tile joints, as this will compromise the grout integrity.**

### APPROXIMATE COVERAGE:

Varies considerably depending on dilution and application and the extent of the cementitious grout / mortar residues.

### CLEANING:

Clean hands with warm, soapy water before the product dries.

### PACKAGING:

TAL Goldstar Grout Residue Remover is available in 1ℓ and 5ℓ plastic bottles.

### STORAGE & SHELF LIFE:

Ensure lid is tightly sealed and packaging is secure and upright.

Secure product when transporting to prevent accidental spillage.

When stored in the original sealed packaging in dry internal conditions between 10°C and 30°C and out of direct sunlight the product has a shelf life of 6 months from date of manufacture.

**Never store directly on a concrete floor.**

**Do not allow to freeze.**

**IMPORTANT NOTICE:** TAL believes the information on this sheet to be correct – but does not guarantee its accuracy or completeness. Conduct your own tests of this product to determine its suitability for intended use. User assumes all risks and liability during testing and use of this product. In special cases, obtain professional advice. The only obligation of TAL shall be to replace any of this product proved to be defective in material. TAL shall not be liable for any injury, loss or damage, direct or consequential, relating to the use or inability to use this product.
