

TECHNICAL DATA SHEET

GOLDSTAR[®] HEAVY DUTY TILE CLEANER

REQUIRES
DILUTION

INDUSTRIAL

A high-alkaline cleaner and degreaser suitable for all tile natural stone and hard surfaces. Also suitable for most soft surfaces such as carpets.

DESCRIPTION

TAL Goldstar Heavy Duty Tile Cleaner is an advanced formula, concentrated high-alkaline cleaner and degreaser. It effectively removes stubborn dirt, grease, grime, soap scum, body oils, etc. TAL Goldstar Heavy Duty Tile Cleaner is specially formulated to strip off synthetic and acrylic emulsion polishes from tiles and other hard surfaces, with minimal scrubbing.

It can also be used to “spot clean” stains and marks before general cleaning with **TAL Goldstar Daily Tile Cleaner**.

When diluted with clean water, **TAL Goldstar Heavy Duty Tile Cleaner** is suitable for use on all types of hard surfaces, including granite, porcelain, quarry, terracotta and natural stone tiles, as well as cement paving stones, corrugated iron, galvanized metal, painted surfaces, and most types of soft surfaces, including carpets.

FEATURES

- Removes dirt, grease & grime
- Minimal scrubbing required
- Commercial & industrial use

TECHNICAL DATA SHEET

GOLDSTAR® HEAVY DUTY TILE CLEANER

Issue Date: 27 JANUARY 2025

DESCRIPTION (Continued):

TAL Goldstar Heavy Duty Tile Cleaner can be used for heavy-duty cleaning of commercial and industrial floors, including factories, garages, kitchens, workshops, etc.

Note: This product is designed for the above-mentioned application only. TAL will not be liable for misuse or adulteration of the product.

TECHNICAL DATA:

Type	Cleaner
Colour	Blue
Packaging	1L & 5L
Application Temperature Range (Ambient)	10°C - 30°C

CAUTION:

- Not suitable for use on linoleum.
- Do not mix with other chemicals.
- Do not allow to freeze.

PREPARATION:

It is important to ensure that floors and surfaces are thoroughly swept or dusted to remove all traces of surface dust, debris, etc.

DILUTION:

Recommended dilution is 1:10 (100ml / 1 litre) with clean cold water.

Stronger concentrations may be required for stubborn or ingrained stains and marks.

APPLICATION:

• General Cleaning

After mixing TAL Goldstar Heavy Duty Tile Cleaner with the required quantity of cool clean water, soak the area to be cleaned with the TAL Goldstar Heavy Duty Tile Cleaner solution for at least 10 minutes. Stubborn or ingrained stains and marks may require light abrasion / scrubbing in a circular motion.

Clean the area with a mop, changing the cleaning solution water frequently (ie when the water changes to a murky brown liquid) to ensure that the dirt is not redistributed or re-deposited on the tiles/surface.

Rinse the area afterwards with clean water to remove residual chemicals or dirt. Allow the surface to dry completely before trafficking or usage.

• Spot Cleaning

Dampen a clean cloth or sponge with the TAL Goldstar Heavy Duty Tile Cleaner solution and wipe the affected area. Stubborn or ingrained stains and marks may require light abrasion / scrubbing in a circular motion.

Rinse the area afterwards with clean water to remove residual chemicals or dirt. Allow the surface to dry completely before trafficking or usage.

• Industrial Cleaning

TAL Goldstar Heavy Duty Tile Cleaner is suitable for use with industrial floor cleaning machines and equipment.

APPROXIMATE COVERAGE:

Varies considerably depending on dilution and application.

IMPORTANT NOTICE: TAL believes the information on this sheet to be correct – but does not guarantee its accuracy or completeness. Conduct your own tests of this product to determine its suitability for intended use. User assumes all risks and liability during testing and use of this product.
